Other Information

Age - 20

(Diploma In Computer Science students looking for internship and job after graduation)

I am looking for a job highly involve in computing, I have been working with computer since little, I have solved many computer problems, such as problem during boot up, blue screen and hard disk cable not installed properly that was when i was little.

I have an average typing speed of 60 words per minute with 100% accuracy, I can enjoy myself typing and working out with documents in Microsoft Word.

I have experience as programmer and web designer at a MSC based company called Unijaya using MVC based framework and takes part in developing prototype for organization such as Cyber Security Malaysia and Giatmara
